DETAILED ACTION

1. This application contains claims directed to the following patentably distinct species:

Species I : 1st embodiment is shown in fig. 1,

Species II : 2nd embodiment is shown in fig. 2-3,

Species III : 3rd embodiment is shown in fig. 4-5,

Species IV : 4th embodiment is shown in fig. 6,

Species V : 5th embodiment is shown in fig. 7,

Species VI : 6th embodiment is shown in fig. 8-10,

Species VII : 7th embodiment is shown in fig. 11-12,

Species VIII : 8th embodiment is shown in fig. 13,

Species IX : 9th embodiment is shown in fig. 14-15,

Species X : 10th embodiment is shown in fig. 16,

Species XI : 11th embodiment is shown in fig. 17-18,

Species XII : 12th embodiment is shown in fig. 19-20,

Species XIII : 13th embodiment is shown in fig. 21-22,

Species XIV : 14th embodiment is shown in fig. 22-23.

The species are independent or distinct because they are all different embodiments.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
